

# HAPAX SHIMS & WEDGES

HAPAX professional, construction grade shims and wedges make fast, efficient levelling or flushing out to perfect alignment quick and easy.

Composite shims and wedges are perfect for hardware and lumber, concrete and masonry, curtain walls, glazing, windows, doors, floors, levelling cabinets, equipment levelling, and numerous other uses around the construction site.

Made from load bearing, compaction and rot resistant materials for construction usage. Produced in accordance with the ISO 9001:2000 standard, these durable accessories carry specific loading ranges and are colour-coded for quick size identification.

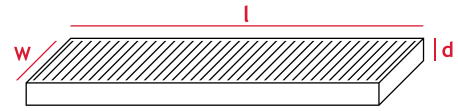

## HAPAX Packer Shims

HAP05

for wedging and leveling at low height

- Hapax Packer Shims shims come in five different thicknesses: 1, 2, 3, 4 and 5mm.
- Drill and fasten through with no risk of failure.
- Suitable for both interior and exterior usage; UV-stable, heat- and frost-resistant.
- Load-rated to 300kg, 660lb.

 300 kg  
660 lb

## HAPAX Slotted Assembly Blocks

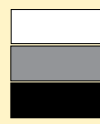

HAP05

for wedging and leveling

- Designed with a two-way locking feature that allows precise levelling of larger spaces and beams.
- A side guide ensures these wedges remain properly seated, while their serrated inclined surfaces interlock as the wedging is increased to the desired height.
- Three different sizes means wedging up to 40mm, 1-1/2" is easy.
- Drill and fasten through with no risk of failure.
- Suitable for both interior and exterior usage; UV-stable, heat- and frost-resistant.
- Load-rated to 600kg, 1,300lb.

## HAPAX Hanging Adjustment Blocks

for wedging and leveling during vertical construction work

**HAP05**

- A U-shaped shim with unique inner fins that allow you to set the shim in hard-to-hold places.
- Combed for centering on bolt and to resist falling off. Once your installation is complete, the break-away tab is easily removed.
- Suitable for both interior and exterior usage.
- UV-stable, heat- and frost-resistant.
- Stackable. Load-rated to 300kg, 660lb.

## HAPAX Heavy Load Adjustment Blocks

for wedging and leveling heavy loads

**HAP05**

- Specifically developed for wedging and leveling heavy loads, these adjustment blocks are ideal for 1/16–4-inch leveling spaces.
- Their unique self-pinning means each wedge stays in place and interlocks as other shims are placed on top, stacking to the right height.
- Drill and fasten through with no risk of failure.
- Suitable for both interior and exterior usage; UV-stable, heat- and frost-resistant.
- Load-rated to 2 tonnes, 4,400lb.
